STOP PRESS!

PVC Manufacturers have
announced **9%** increase from **1st
July**. Buy up this month while the
price is still down!

STOCKTAKE BARGAIN TIME

All Southern Plumbing Managers have been given orders to clear out old, obsolete and slightly damaged stock in June so it will not be included in the company's stocktake. This means some great plumbing and bathroom bargains for the astute buyer.

So check out the "Manager's clearance tables" in all stores. The gear must be gone by stocktake on the last weekend in June.

LONG SOBER ROAD NEARS ITS END

For Jason Miller, the company's GM (Retail), the agony is nearly over.

Last New Year's Eve, with no better resolution in mind, Jason decided he would give up the grog for six months. And despite the many temptations put in his path by friends and work colleagues, including the opportunity of sampling a bottle of Grange Hermitage, he's stuck to his guns.

For five long months, Jason's passed many a glass of fine wine under his nose, but not a drop has passed the lips. No wine, no beer, no spirits, nothing.

Why? Because he says he wanted to challenge himself.

Has it made any difference? "No, I feel just the same," he said. "But I've also discovered what rot you people carry on with after a few drinks."

Would he do it again? "No!"

So stand clear. Thursday 1 July is "game on" day. Jason's mates think he'll last two drinks before he falls over.

**The smart
choice for gas**

gasPlus

Quick to install, light weight and durable: Gas Plus is the smart choice for installing gas. Gas Plus brings new levels of simplicity to gas installation. It uses the efficient crimping method (already proven in the highly successful Crimp Plus system). And best of all no brazing or soldering means less gear to haul.
